ENVIRONMENTAL POLICY

The management and staff of the company are totally committed to sound environmental management as a part of its daily activities. We pledge to increase our understanding of the company's effects and take steps to minimize or eliminate them, taking into account the financial operations and business requirements of the company.

Our attitude: We recognize our responsibility to the environment and all living things wherever we operate. We bear a special responsibility to our customers, staff and local residents'. We aim to ensure a safe, healthy and sustainable environment on which we have the least impact.

Conservatism: We aim to conserve natural resources by minimizing the use of non renewable materials, by recycling materials wherever possible, by minimizing energy use and by using recycled products whenever possible.

Legal compliance: We will comply with all legal requirements. We will strive to achieve waste free production/service to avoid polluting the land air or water. We will avoid hazardous processes or materials where alternatives are available. We will reduce waste and losses by being efficient and will take all reasonable steps to prevent pollution at its source.

Work place: Our vessels, shore bases premises and offices will be safe, healthy and attractive places in which to work. We will avoid hazardous practices. We will assess the environmental impact of all major proposed changes and reduce their environmental effects.

The community: We will be a responsible neighbor acting promptly to correct incidents or conditions that endanger health, safety or environment.

Staff: We will ensure that all our employees are aware of their environmental responsibilities and will provide proper training.

Suppliers: We do expect high environmental standards from our suppliers and contractors who work with us and we will monitor their performance.

Continual improvement: We will review our policy annually in order to identify new objectives and targets. We will seek continual improvement in environmental performance.

MANAGING DIRECTOR
